PROFILE

Dynamic Marine Engineer with over a decade of experience in marine engineering, project management, and team leadership. Skilled in communication, problem-solving, and working under pressure. Strong background in generator and main engine decarb, hydraulic systems, and welding. Known for initiative and critical thinking.

Passionate about DevOps and cybersecurity, with hands-on experience managing self-hosted services and cloud deployments. Winner of a nationwide hackathon, demonstrating technical expertise and teamwork. Continuously learning and applying best practices in system automation and secure infrastructure management.

EMPLOYMENT HISTORY

Marine Engineer, Kuwait Oil Tankers Company

2012 — Present

As a Marine Engineer at Kuwait Oil Tankers Company, I am responsible for overseeing the maintenance and operation of marine vessels, ensuring their proper functioning and compliance with industry standards.

Key Responsibilities:

- Performing regular inspections and maintenance to ensure the smooth operation of the vessel's mechanical systems.
- Coordinating with the engineering team to execute maintenance activities efficiently.
- Upkeeping compliance with safety and environmental regulations to ensure a secure working environment.
- Utilizing problem-solving skills to address technical issues and troubleshoot any mechanical failures.
- Implementing innovative solutions for improved vessel performance and efficiency.

Ceo, BNKR Computers

Dec 2019 — Sep 2024

As CEO of BNKR Computers, I played a pivotal role in leading the company and overseeing its operations, contributing to its growth and success.

Key Accomplishments:

- Achieving first place in Kuwait Hackathon 2024, showcasing technical prowess and innovative capabilities.
- Maintaining multiple locally hosted services till present, ensuring their reliability and functionality for clients.
